Corporal Div opened the meeting with grace, the Four Way Test and a toast to South Africa.

President Pete distributed the work schedules for the forthcoming Rotary Family Health Days function, and announced that there would be a final briefing for all participants on Wednesday afternoon.

Serjeant Gill saw to the Dates and Duties, followed by Ken who, having received apologies from André, Andries, Allison, Chris, Lizanne et al, recorded an attendance of 14/22 for 63.6%.

Corporal Div took advantage of the impending Mothers' Day [isn't every day Mothers' Day?], to relate a number of anecdotes about what various mothers said to their subsequently famous children. Needless to say, TRF was the beneficiary.

Div rounded the meeting with a quotation from Albert Einstein:-  
*"Everything that can be counted does not necessarily count; everything that counts cannot necessarily be counted"*.

**Rotary Code of Conduct**

As a Rotarian, I will...

1. Exemplify the core value of integrity in all behaviors and activities
2. Use my vocational experience and talents to serve in Rotary
3. Conduct all of my personal, business, and professional affairs ethically, encouraging and fostering high ethical standards as an example to others
4. Be fair in all dealings with others and treat them with the respect due to them as fellow human beings
5. Promote recognition and respect for all occupations which are useful to society
6. Offer my vocational talents: to provide opportunities for young people, to work for the relief of the special needs of others, and to improve the quality of life in my community
7. Honor the trust that Rotary and fellow Rotarians provide and not do anything that will bring disfavor or reflect adversely on Rotary or fellow Rotarians
8. Not seek from a fellow Rotarian a privilege or advantage not normally accorded others in a business or professional relationship

## Last meeting's attendance—64%

## Rotary Family Health Days South Africa 2013

(For the benefit of those Rotarians who may be wondering “hey—what did I miss”!)

The Rotary Family Health Days (RFHD) are a signature programme of the Rotarians For Family Health & Aids Prevention, Inc. (RFHA), who initiate, coordinate and manage this program with the other partner organizations.

Rotary Family Health Days (RFHD) are a comprehensive, holistic offering of free health care services over three days across South Africa for parents, children, grandparents, friends and all the family.

The RFHD will be carried out at 180 sites across the country, and will include the following services:

- HIV counseling and testing
- TB testing
- Diabetes and blood pressure screening
- Polio and measles vaccination
- Deworming
- Vitamin A tablets

Rotarians will also be facilitating other services at various sites such as dentistry, eye testing, cervical cancer smears, mammography screens and hygiene education.

The Rotary Family Health Days programme was initially developed to address the critically important issue of HIV/AIDS, but always included other wrap around health care services. The 2011 pilot was held in Uganda (at 120 sites) and parts of Kenya (40 sites). Nigeria (Lagos State at 100 sites) was added in 2012.

For the May 2013 event, it was decided to expand the RFHD to South Africa in addition to the countries of Uganda and Nigeria. (An estimated 5.6 million people were living with HIV/ AIDS in South Africa in 2011, the highest number of people in any country .)

RFHA received an unprecedented commitment from the South African Government’s Department of Health who wanted to support the implementation of the RFHD programme across the country. In partnership with Coca-Cola South Africa, CDC, USAID and other partner organizations, the RFHD programme is now being implemented in South Africa at 180 sites in all nine South African provinces for the first time.

The RFHD will be held between 9-11 May 2013 with the goals of:

- Testing and counseling 50,000 people for HIV in 180 site locations;
- Polio drops will also be administered at this stage; and
- Enlisting about 4,000 Rotarians, Rotaractors and Interactors.
