## Meeting Report - 12 August

**Rotary District  
9370**

**RI President**  
Ron Burton

**District 9370  
Governor**  
Greg Cryer

**Assistant  
Governor for  
Kimberley  
& Bloemfontein**  
Gill Quinn

**Club President**  
Janine Snyders

**Club Board**  
Pete van Zyl  
Corlia v Tonder  
Ken Quinn  
André Oberholzer  
Amanda van Zyl  
Philip Maritz  
Peter Thomas

**Club Meetings**  
Kimberley Club  
Monday  
12:45 for 13:00

**Bulletin Editor**  
Dwayne Evans

The meeting was opened by President/Corporal Janine (the first time in living memory that a president of this club has insisted on having an official spell as corporal. [*One can but suspect some ulterior motive—revenge, perhaps? - ed*]). It has to be said that *la presidente* executed her self-imposed corporal duties not only with praiseworthy accuracy, but also with unprecedented rapidity.

Resuming her presidential rôle, Janine reported that:-

- Lizanne had a potential recipient for a wheelchair, if we had one available; Pete v Z will investigate.
- The board meeting is re-scheduled for next Thursday.

In a pathetic attempt to emulate our regular, highly efficient Serjeant (Gill Quinn, once again gallivanting around the country), Acting Serjeant Barry reminded everyone of imminent Dates and Duties. He then gave himself a spot to advertise four boxes of dictionaries looking for a good home—and Pete v Z once again came to the rescue. Corlia took a spot to talk about our forthcoming Trail Run, and sent around an attendance list.

Having received a number of apologies, Attendance Officer Ken announced our attendance (including a makeup) as 13/23 for 56.5%. He also reported that he and Gill had recently attended Bloemfontein-Raadzaal's induction dinner. Like many of B-R's dinners in recent years, it was held at the Bloemfontein Hotel School. Ken wanted to mention that, in terms of quality of food and service, it was one of the best Rotary dinners he had ever experienced.

The anticipated corporal revenge session took the form of a couple of emails purportedly seeking computer software support. In order to do *la presidente* justice [but mainly as an act of self-preservation on the part of your editor], the emails are reproduced on page 2 of this newsletter. In any event, TRF once again came out the winner.

Finally, President/Corporal Janine closed the meeting with her tail piece:-  
"No God, No Peace; Know God, Know Peace"

**Last meeting's attendance - 57%**

## Husband 1.0

(as supplied by President/Corporal Janine)

FROM: Jane  
TO: Tech Support

Last year I upgraded from Boyfriend 5.0 to Husband 1.0 and noticed that the new program began making unexpected changes to the accounting software; severely limiting access to wardrobe, flower and jewelry applications that operated flawlessly under Boyfriend 5.0. No mention of this phenomenon was included in the product brochure. In addition, Husband 1.0 uninstalls many other valuable programs such as Dinner Dancing 7.5, Cruise Ship 2.3, and Opera Night 6.1. It also installs new, undesirable programs such as Poker Night 1.3, Saturday Football 5.0, Golf 2.4, Toilet Seat Up 1.7 and Clutter Everywhere 4.5. Conversation 8.0 no longer runs. When I click on it, the system crashes. Under no circumstances will it run Diaper Changing 14.1 or House Cleaning 2.6.

I've tried running Nagging 5.3 to fix Husband 1.0, but this all-purpose utility is of limited effectiveness. Can you help, please!!!!

\*\*\*\*\*

FROM: Tech Support  
TO: Jane  
Subject: Upgrade Dangers

Yours is a common problem women complain about and is mostly due to a misconception. Many people upgrade from Boyfriend 5.0 to Husband 1.0 with no idea that Boyfriend 5.0 is merely an ENTERTAINMENT package. However, Husband 1.0 is an OPERATING SYSTEM and was designed by its creator to run as few applications as possible. Further, you cannot purge Husband 1.0 and return to Boyfriend 5.0, because Husband 1.0 is not designed to do this. Hidden operating files within your system would cause Boyfriend 5.0 to emulate Husband 1.0, so nothing is gained. It is impossible to uninstall, delete, or purge the program files from the system, once installed. Any new program files can only be installed once per year, as Husband 1.0 has severely limited memory. Error messages are common, and a normal part of Husband 1.0.

In desperation to play some of their "old time" favorite applications, or to get new applications to work, some women have tried to install Boyfriend 6.0, or Husband 2.0. However, these women end up with more problems than encountered with Husband 1.0. Look in your manual under "Warnings: Divorce/Child Support". You will notice that this program runs very poorly, and comes bundled with Heart Break 1.3. I recommend you keep Husband 1.0, and just learn the quirks of this strange and illogical system. Having Husband 1.0 installed myself, I might also suggest you read the entire section regarding General Partnership Faults [GPFs]. This is a wonderful feature of Husband 1.0, secretly installed by the parent company as an integral part of the operating system. Husband 1.0 must assume ALL responsibility for ALL faults and problems, regardless of root cause. To activate this great feature enter the command "C:\ I THOUGHT YOU LOVED ME". Sometimes Tears 6.2 must be run simultaneously while entering the command. Husband 1.0 should then run the applications Apologize 12.3 and Flowers/ Chocolates 7.8.

TECH TIP! Avoid excessive use of this feature. Overuse can create additional and more serious GPFs, and ultimately YOU may have to give a C:\ I APOLOGIZE command before the system will return to normal operations. Overuse can also cause Husband 1.0 to default to Grumpy Silence 2.5, or worse yet, to Beer 6.0. Beer 6.0 is a very bad program that causes Husband 1.0 to create Fat Belly files and Snoring Loudly wave files that are very hard to delete. Save yourself some trouble by following this tech tip! Just remember! The system will run smoothly, and take the blame for all GPFs, but because of this fine feature it can only intermittently run all the applications Boyfriend 5.0 ran.

Husband 1.0 is a great program, but it does have limited memory and cannot learn new applications quickly. Consider buying additional software to improve performance. I personally recommend Hot Food 3.0, Lingerie 5.3 and Patience 10.1. Used in conjunction, these utilities can really help keep Husband 1.0 running smoothly. After several years of use, Husband 1.0 will become familiar and you will find many valuable embedded features such as Fix Broken Things 2.1, Snuggling 4.2 and Best Friend 7.6.

A final word of caution! DO NOT, under any circumstances, install Mother in Law 1.0. This is not a supported application, and will cause selective shutdown of the operating system. Husband 1.0 will run only Fishing 9.4 and Hunting 5.2 until Mother In Law 1.0 is uninstalled.

I hope these notes have helped. Thank you for choosing to install Husband 1.0 and we here at Tech Support wish you the best of luck in coming years We trust you will learn to fully enjoy this product!

# Rotary Le-Ré Charity Trail Run

**Saturday 24 August 2013  
Le-Ré Ranch**

(R357 to Douglas - 16.2km from Douglas/Barkly crossing)

**18km Trail Run and  
8km Fun Run/Walk**

**Run starts at 8:30am**
