Meeting Report: 21 September 2015

President André welcomed fellow Rotarians. Corporal Ken said grace and recited the Four-way test.

Presidential announcements included a brief discussion on the upcoming Night Cycle Race. New directional indicators (arrows) have been made. André also asked if anyone had reflective tape that could be used. A duty list and sponsor request forms will be circulated in due course.

Attendance Officer Ken put the numbers at 12 of 20, or 60%.

Sergeant Brenda went through the duties and celebrations for the coming week.

Corporal Ken told a story of how newspaper headlines can have humorous consequences. Something about a pastor's racing donkey.

He continued with a few humorous quotes for a tailpiece, including this one:

"Behind every successful man is his woman. Behind the fall of a success man is usually the other woman."

[The following is the poem Gill shared with us]

Ode to a Mammogram

[Ed: I have taken the initiative to change some of the wording, for the complete (unedited) version, just google the title]

For years and years they told me, "Be careful of your breasts."
Don't ever squeeze or bruise them, and give them monthly tests.

So, I heeded all their warnings....and protected them by law....
Guarded them very carefully, and always wore a bra.

After 10 years of careful care, the doctor found a lump.
He ordered up a mammogram to look inside that clump.

"Stand up very close," the nurse said, as she got my tit in line,
"And tell me when it hurts," she said. "Ah, yes....that's just fine."

She stepped upon a pedal....I could not believe my eyes,
A plastic plate was pressing down....My [breast] was in a vice....

My skin was stretched and stretched from way up by my chin,
And my poor [breast] was being squashed to Swedish pancake thing.....

Excruciating pain I felt, within it's vice-like grip,
A prisoner in this vicious thing.....My poor defenseless [breast].....

"Take a deep breath" she said to me. Who does she think she's kidding?
My chest is smashed in her machine, I can't breathe and woozy I am getting!

"There, that was good" I heard her say, as the room was slowly swaying.
"Now let's get the other one."....."Lord have mercy," I was praying.

It squeezed me from the up and down, it squeezed me from both sides,
I'll bet she never has this done to HER tender little hide.

If I had no problem when I first came in, I surely have one now.....
If there had been a cyst in there, it would have popped Ker-Pow!

This machine was made by a
MAN, of this I have no doubt.....
I'd like to get his [you know whats]
in there....for months he'd go
WITHOUT!

Be a gift to the world
